

SPEAKEASY HOSTED VOICE

The high-performance, no-maintenance Hosted PBX solution that gives your business a competitive edge.

Speakeasy Hosted Voice gives small businesses a competitive edge with low start-up costs, affordable long-distance, and advanced productivity-boosting features. There's no PBX or IP-PBX equipment to buy or lease, and no need for an expensive maintenance contract. And any moves, adds or changes you need to make after the initial installation can be done virtually.

As a complete solution, Hosted Voice includes your choice of business-class connectivity, employee calling plans, and long-distance options. It delivers all the functionality of traditional phone service, plus cost savings and productivity-enhancing features never before available on a small business budget.

“We’re really happy with the advanced features and long distance savings we get with Speakeasy Hosted Voice. We have a lot of employees on the phone all the time with customers all over the world, but we’ve had no voice quality problems. Plus, we saved about \$20,000 on initial set-up over a hardware solution.”

HOSTED VOICE FEATURES THAT HELP YOU WORK SMARTER

Advanced Voice features from Speakeasy help you work smarter and increase your overall productivity. No more phone tag, missed calls, or hotel long distance surcharges. You decide who you keep in touch with, how, when, and where.

Find me/Follow me. Allows you to define how incoming calls are routed or forwarded for individuals or groups of inbound callers—ensuring that you receive important calls, wherever you are.

Remote Office. Turn any phone into your office phone, allowing you to work remotely while avoiding personal long-distance fees and hotel calling surcharges.

Voicemail as Email. Receive important voicemail-as-email attachments. Voicemails are delivered in a .wav file.

Voice Communications Toolbar. Access common features directly from Outlook and Internet Explorer. Fully integrates with Outlook contacts directories.

Included features. Caller ID, call forwarding, call hold, call transfer, call waiting, 3-way calling, redial, do not disturb, speed dial and hook flash, e911 service, extension dialing across sites, calling line ID, simultaneous ring, sequential ring, call forwarding selective, and teleworker.

Optional add-ons. Auto attendant, hunt groups, conferencing, Speakeasy attendant console, toll-free numbers, call center, vanity telephone numbers, and growth reserved numbers.
